**RESILIENT ROLLSTOCK**

These versatile cushioning products function as non-skid feet, spacers, and cushions. Their anti-skid, anti-vibration capabilities help extend product life and improve product performance. With their buffering properties, they also protect surfaces from marring, staining, and abrasion.

- Converters can custom die cut these products to fit virtually any shape or application.
- Ideal for laptop computers, calculators, electronic equipment, and housewares.
- Available clear or colored, in a variety of widths, and with a choice of adhesives.
- Please call for details.
